QUICK CONNECT

L.V. Lomas has landed in Shanghai

A New Era Begins.

L.V. Lomas is thrilled to announce the opening of our new representative office in one of the world's great centres of trade, Shanghai, China. This facility will serve as our Asian base from which we will carry out a large number of activities.

A key beachhead for our clients and principals.

Our new Shanghai office will serve as an entry point for our customers and principals keen to trade in China, but lacking contacts or a basic presence on the ground. For L.V. Lomas customers manufacturing or sourcing products in China, our new facility gives us the opportunity to offer a supportive presence.

Key L.V. Lomas personnel stationed in Shanghai.

The usefulness to many of our customers and principals of having L.V. Lomas professionals on the ground in China can be significant. It offers a level of quality management and logistical support that would otherwise be unavailable.

Opening new doors.

China's booming economy presents many opportunities to export goods manufactured in North America. It's our goal to develop new relationships with manufacturers in China and help our customers and principals generate new sales leads.

Globalizing our presence.

We are truly excited over this move into the world's most vigorous economy. The new venture gives L.V. Lomas a global presence, enhancing our reliability and credibility in the eyes of current and future customers and principals.

Contact your Lomas representative should you see value we can bring to your organization through this new venture. We look forward to exploring new ways we can better serve your company!
